

Kimberly Lim (Team B2)

What did you personally accomplish this week on the project? Give files or photos that demonstrate your progress. Prove to the reader that you put sufficient effort into the project over the course of the week (12+ hours).

- Worked on Design Review Report in accordance to template posted
 - This week was focused more on design review report and attending design presentations of other teams during the course schedule time
 - Worked on Abstract, Introduction, Design Requirements, Related Work, Design Trade Studies
- Worked on team status report
- Camera arrived this week; read through manual for imaging kit

Is your progress on schedule or behind? If you are behind, what actions will be taken to catch up to the project schedule?

- Behind schedule for code on FPGA Code Synthesis
 - We ran into trouble with Quartus due to faulty environment setup
 - Camera also just arrived this week
 - We anticipated in our initial schedule and had designed for some slack over spring break

What deliverables do you hope to complete in the next week?

- Finished Design Review Report on Monday
- Update .cpp implementation for multi-seam removal in 1 run
- Integrate video quality metrics on resultant videos using http://www.compression.ru/video/quality_measure/video_measurement_tool.html#features
- We will get the Camera Imaging Kit on Monday and will first, finish the tutorials for that and then, write the code for our system to interface with it
