

Shruti Narayan
Team B2

What did you personally accomplish this week on the project? Give files or photos that demonstrate your progress. Prove to the reader that you put sufficient effort into the project over the course of the week (12+ hours).

- We had Carnival this week - as planned in our schedule, we did not work on the project then
- Before though, we met and planned out each individual module (their input/outputs, who will complete them, etc)
- We reflected on our data flow (which was our mid-semester demo) and discussed how it will change for the final - pre/postprocessing, will it come solely from the camera, etc
- I worked on the energy map modules, they are in progress and will be tested next week

Is your progress on schedule or behind? If you are behind, what actions will be taken to catch up to the project schedule?

- We still have time left to complete the modules - it's a bit tight but we're not behind yet. We will have to work to make sure we have it mostly done by Wednesday class so that we can meet the rest of the schedule

What deliverables do you hope to complete in the next week?

- Finish processing portions of all modules complete (I will do energy map ones and others will complete other stages)
- Ready for integration step
