

Kashish Garg  
Team D1

### **What did you personally accomplish this week on the project?**

- Communication between Raspi and Arduino was completed
  - Agreed on communication protocol with Isabel for Arduino and raspberry pi
  - Adapted Raspberry pi code to send and receive signals from the Arduino
- Began testing the whole system
  - Works with one ultra sonic sensor
  - Still debugging with the two others on the sides

### **Schedule**

We are a little behind, but we should be able to catch up next week, since it will be testing and debugging, and no new code :)

### **What deliverables do you hope to complete in the next week?**

- Debugging ultrasonic sensors
- Testing the load sensor
